

SMS Projector CL V

Taking your projector to new heights.

SMS Projector CL V is our flagship projector bracket (and probably the most-sold in Europe). Elegant, functional and very reliable. It's easy to adjust the length and angle of the bracket. SMS Projector CL V holds your projector upside down – it's the best way to get the most out of your projector. A white cover plate for suspended ceilings is available as an accessory. It can be mounted last, when all cables are in place, for simple and nice-looking installation.

The catchword for this ceiling bracket is "easy". Easy to install, easy to adjust and easy to like. The SMS Unislide is included in the package.
