

### SLIM FIXED

SKU: N/A

Puts your display up as a poster on the wall. Mount a thin display close to the wall with the aid of a bracket that can hardly be seen behind it. The distance from the wall is as little as 5 mm. The bracket has few parts and is easy to mount, making it a solution that is as clever as it is cost effective for anyone looking for a graceful and discrete mounting. The bracket is available in three versions (each with its own article number) to fit displays of different hole patterns. Recommended display size: approx. 32-60 inches.

**Maximum display depth: 50mm**
