

X FH MD

SKU: N/A

Who knows the direction from which visitors will arrive? Placing two screens that face different directions on a single bracket will reduce the risk. And further flexibility is gained from the complete arrangement being simple to turn and move. Several column lengths are available, as are versions with a motorized column, making height adjustment especially easy. Delivered as standard with our X H Unislide which can be placed at selected positions along the column.

The X series is characterised by clean and refined features. The cable holder, for example, into which it is easy to place all cables by hand. The surface finish has also been given extra attention.

NB! When mounting a touch display, please choose our Presence (PR031-series) or Func series (FMN031001/FMT031001).

The motorized versions, XM033001-P0 and XM033002-P0, are discontinued.

Max weight 50

Warranty 5

VESA Horizontal 200 - 800

VESA Vertical 200 - 400
